

Treasurer Profile

CMTC-OVM is a patient organisation operating worldwide in which the patient and their direct environment are placed centrally. The board members and all the volunteers from a variety of countries carry out their highly appreciated work with much drive and a great deal of enjoyment. Together we have already achieved a lot and we can continue to do so. We represent the interests of the patients, who are often children and their direct family and we help them in all sorts of practical ways. Thanks to our organisation, to be able to provide clarity to a patient in terms of his or her condition is something that gives us a wonderful feeling each time. Our international volunteers are pleased to be actively involved in an enthusiastic and professional team.
